TOULON PROVENCE

It is with immense pride that we open the doors to this 2026 edition of the Toulon Provence Regatta. More than just a nautical competition, this event has become the unmissable meeting point where history meets the future, in the heart of Europe's most beautiful harbor.

A Historic Edition

This year, the TPR takes on a solemn dimension. Labeled as part of the 400th anniversary of the French Navy (Marine nationale), our event pays tribute to four centuries of expertise, commitment, and passion for the sea. Toulon, the port of the Levant and cradle of naval excellence, is the natural stage for this celebration where the tricolor flag will fly proudly on our participants' sails.

The Spectacle of Tradition and the Future

Prepare for a unique journey through time

Admire the majesty of the 12mR and traditional sailing boats. These legends of the America's Cup, jewels of international maritime heritage, will compete in tactical regattas of rare elegance. Turn your gaze toward the future with AIRegatta.

For the first time in the world, autonomous sailing drones piloted by Artificial Intelligence will set sail, foreshadowing tomorrow's technological revolution in maritime transport.

An Event for All

The Toulon Provence Regatta is a shared celebration. From the educational "Maritime Path" (Parcours de la Mer) to visits to exceptional ships, nautical discovery sessions, and the official Village on the port, we have designed this program so that young and old, enthusiasts and the curious alike, can fully immerse themselves in this fascinating universe.

We invite you to browse this program so as not to miss anything during these four days of celebration, sport, and discovery.

Happy regatta to everyone!
